

LOBSTER

WENLOBSTER.IO

Introduction:

Hey, hand me over the  , I have got something to say: Logan here, Charles' Lobster, need to clarify some things. Everyone in the Cardano community thinks that HOSKY is my co-Host's favourite coin. Don't make me laugh! I am the one chilling on the mic on every AMA on youtube, standing by Charles' side when reading your dumb comments, "Wen burn, wen moon, wen smart contracts". I have my claws ready to mute, so my co-Host can rage. I have already claimed the throne. Now I am coming to steal all the glory. I respect \$HOSKY, but I am not afraid of its' bark! What do I offer that HOSKY doesn't? Actual low-quality memes, more nothing and Oh! A better emoji 🦊 . Take your paws elsewhere, woofy.

Friendly Warning:

Our claws are empowered with E-UTXO knowledge and can scale attacks effectively! \$LOBSTER

DISCLAIMER in case you are as smart as a LOBSTER:
We do not correlate with \$HOSKY or CHARLES
HOSKINSON. We admire Charles and Hosky! All these
take place for plain humour, and we do not wish to offend
anyone! Nothing in this paper should be taken seriously or
as financial advice.

Why we are doing this?

Just to have fun and because we love Cardano! Also
because it just sounds right, " I own billions of \$LOBSTER,
wen Lambo?". Just kidding, we are all degens.

Utility?

Useful but useless. Just like our devs! Probably nothing...
Still more scarce than FIAT though!

Tokenomics:

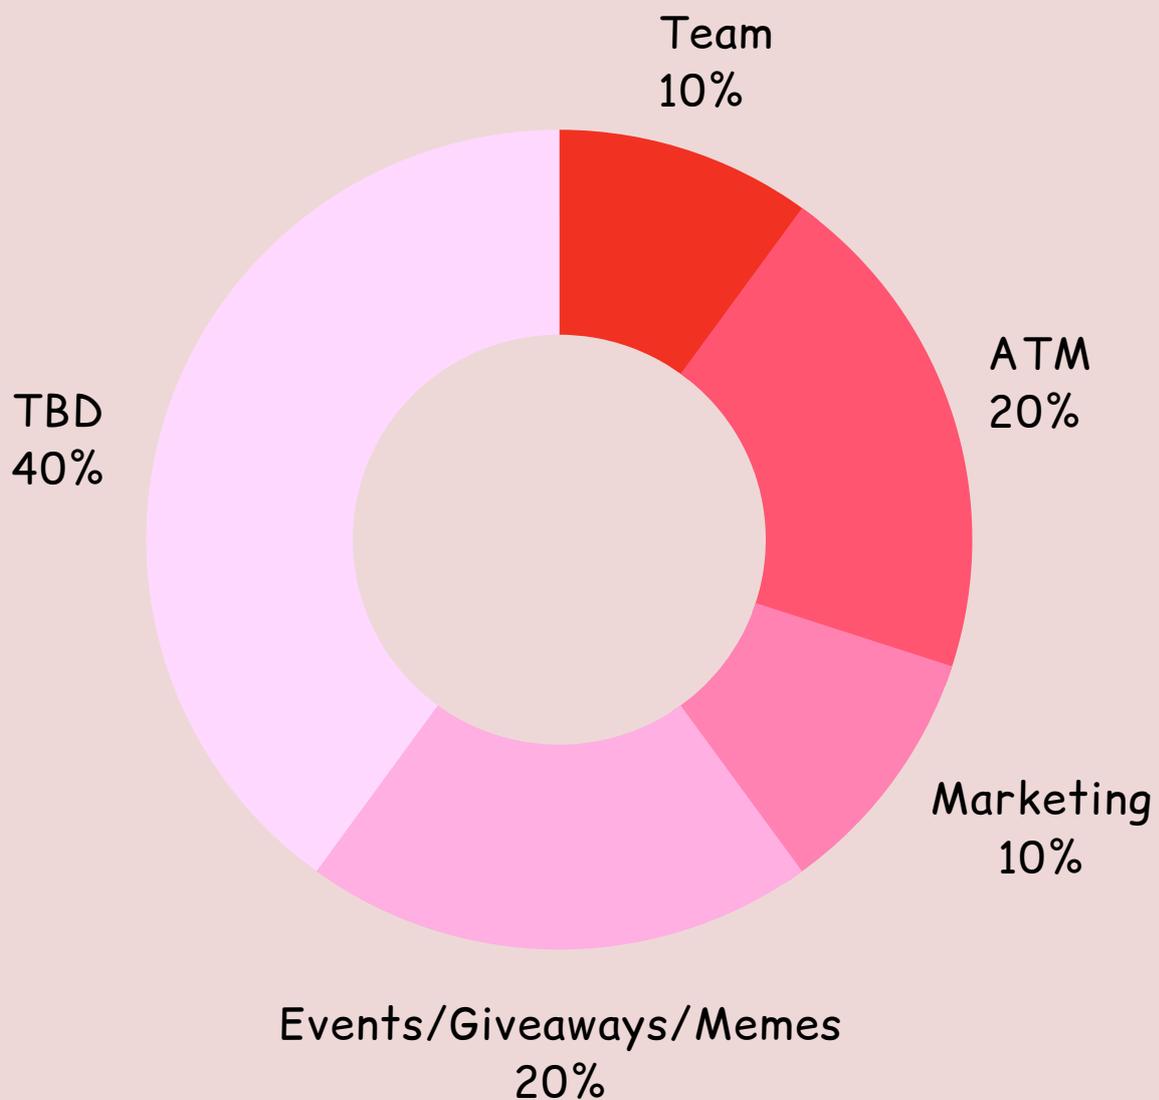

**Following a formula that some woof woofers tried and
seems okay.**

Total Supply: 1,000,000,000,000,000 \$LOBSTER
(Hardcapped & Locked policy)

Distributed to Charles, so he can take care of me:
500,000,000,000,001 \$LOBSTER
Your move HOSKY.

Jokes aside. Hopefully, Charles will be able to trade some of them for the best microphone on planet earth so that Logan the Lobster can sleep comfortably, or decide to donate some to charity. Anyway, we trust his judgment blindly.

Circulating supply: 499T \$LOBSTER

TBD: 40%:

We have no rush to pre-distribute all the circulating supply. That would only hurt LOGAN. No vast amounts will ever be given to market manipulators or money chasers in exchange for exposure.

Our community will help us decide when to use this significant fraction of the circulating supply and how.

TEAM 10% : We just wanted to flex out \$LOBSTER

ATM 20% :

This right here is the Lobster ATM.
It has one job.
Get your money...
make you feel like you are getting scammed..
worry you...
and then
send you some \$LOBSTER.

It operates in a first come first serve way.
Logan's claws are not cash-grabbing, they are love-giving!
